The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, Ohio. Sold by all druggists, 75 cents. Take Hall's Family Pills for constipation.

County Exhibitors.

I wish to inform your readers that I now have a supply of State Fair Premium lists for distribution to those who are interested in making exhibits at the Missouri State Fair this fall. The State Fair dates are Oct. 3rd to 9th inclusive.

The premium catalogue shows largely increased premiums and the addition of an Educational Department, which means that the Missouri State Fair is growing. It is a great Educational Institution and we hope your readers will secure a premium list and enter a large number of exhibits.

The State of Missouri has invested over a half million dollars in buildings and other improvements for the State Fair at Sedalia, and furnishes a splendid opportunity for this County to advertise its many resources, and show to the State at large, the advancement we have made in live stock breeding, Agriculture and education. Every effort should be made to have this county represented in a creditable manner. Copies of this Catalogue can be secured by calling at my office.

DANCES INDEX OF THE TIMES

Reasons Why Graceful Minuet No Longer Finds Popularity in the Ballroom.

In an article entitled "The Dance a Barometer of the Times," Rudolf Brachmann says in a German paper: "The slow, stately, graceful and serious minuet was popular at a time when coaches ran where we now have steam and electric cars, when we were not crowded for space and before the quicker movements had made the soothing old time music unpopular. By slow stages the dance became quicker and less graceful, until it reached the boisterous level. But the turning point came with the wild gallop, and a return to the conservative waltz seems certain. With rational ideas of life comes the rational dance. No better time could have been chosen for the promotion of the Johann Strauss memorial, because we are returning to the waltz age, which he dominated. There will always be eccentric dances. When the cake walk and other dances which only contortionists can perform are old there will be others to take their places. The national dances should never be forgotten, for what can take the place of a fandango, a schaller or a ling?"

WOODEN BREAD.

It is commonly known that bread when very stale becomes practically as hard as wood, but a German paper devoted to the wood industry has conceived the idea of making bread of wood. In fact, in order to exploit the idea, a "bake-house" has been constructed in Berlin, in which the "loaves" are made. It is prepared by first of all submitting the wood in the form of sawdust to various chemical processes, then mixing it with a certain proportion of rye flour, after which it is worked into a paste and put in the oven like ordinary bread. It is necessary to add, however, says the London Globe, that the "bread" is only made for horses.

TOLSTOY A HARD WORKER.

Tolstoy is one of the most prolific writers of any age. He has published some 120 books, and innumerable pamphlets, most of which have been translated into every European language. The extent of his output is the more remarkable when his laborious methods are considered. Some of his chapters have been written a dozen times, and the pages of his manuscript are disfigured by numerous erasures and interpolations. One of his novels had to be copied out seven times before a fairly legible manuscript could be sent to the printers.

MADE BY LIGHTNING.

A log of mahogany which has been sawn through at Belfast, Ireland, was found to contain right through a very cleverly defined "photograph" of a small deer and a large animal running.

The "photograph" was probably transmitted by lightning during a storm and the pictures must have been taken a long time ago, as the tree, being four feet in diameter, is an exceedingly old one.

Every plank on the log right through shows the images clearly.—London Standard.

WHICH IS IT?

Are you right or left-handed? Only about one boy in seven is born left-handed, and in Austria, Russia and other countries there are laws compelling parents to keep at it until they have changed left-handed children to right-handed ones.

This can be easily done up to the age of 12. All tools are made for right-handed persons. They are also better drivers and walkers. Only about one man in 50 can use both arms alike, but that is no advantage, unless using a shovel or ax.

UNCERTAIN.

Smith—Statistics show that in France the deaths exceed the births in number.

Muldoon—A risky place, that, to live.

Smith—Why so?
Muldoon—Why, as I look at it, every man there stood a damned poor chance of being born.—Puck.

HIS CHOICE.

Coggs—I'd prefer to have my hands on them.—Harvard Lampoon.

Where Traveling is Healthful and Instructive.

Have you been to Yellowstone Park? No? Then you have yet to see America's Greatest Wonderland, the scenic center of the continent. Everyone must know the geysers, the canyons and the mountains before they know America though they may have seen all else.

This summer an excellent opportunity is offered for combining with an outing in the mountains a pleasant journey to Yellowstone. The trip can be made through the heart of scenic Colorado—Pueblo, Colorado Springs, Denver, The Garden of the Gods, Pike's Peak, Glenwood Springs, Salt Lake City with its Mormon Temples, Ogden and Pocatello—to Yellowstone, the front gate of the great National Park.

The round trip rate is very low and good for return until October 31. You can stop over at any point in the scenic regions. The Missouri Pacific-Iron Mountain offers the choice of routes, and full information regarding rates and schedules are to be obtained from

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Umo, the noted European skin specialist, declares that dandruff is the harbinger of baldness, the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10¢ in stamps for sample to The Herpicide Co., Detroit, Mich.
